

Simplifying HIPAA Compliance

UNITRENDS COMPLIANCE MANAGER

Industry's Only Automated HIPAA Compliance Tool

Failing a Health Insurance Portability and Accountability Act (HIPAA) audit can be costly, but staying in compliance can be time consuming and costly. Unitrends Compliance Manager (UCM) is the only product that takes HIPAA compliance to the next level. While many HIPAA compliance products provide a list of tasks you must perform, UCM makes the work nearly effortless by automating data collection, analyzing it for you, and delivering dynamic worksheets that are customized to your data.

Current HIPPA Penalty Structure

Violation Tier	*Penalty Range	**Violation Cap
Unknowing Violation	\$100 - \$50,000	\$1,500,000
Reasonable Cause Violation	\$1,000 - \$50,000	\$1,500,000
Willful Neglect of Provision Corrected	\$10,000 - \$50,000	\$1,500,000
Willful Neglect of Provision Not Corrected	Minimum of \$50,000	\$1,500,000

* Penalty Range is per Individual Violation

* Violation Cap reflects a single "Identical Provision" within one calendar year

UCM guides you through a four-step process:

1

INITIAL ASSESSMENT

Scan your network and answer expert questions to quickly determine if GDPR requirements are being met, and if not, what needs to be done.

3

APPROVED DOCUMENTATION

Produce all mandatory reports as required by GDPR and be prepared, in advance, to pass an audit.

2

REMEDIAL SERVICES

Document and prioritize issues that must be addressed to solve GDPR-related security vulnerabilities.

4

ONGOING COMPLIANCE

Regular, automated network scans detect any issues or threats, and alerts you if one is found.

Add Unitrends simple-to-use, automated Recovery Assurance testing - available on Unitrends backup products - to ensure your backup, retention, and recovery policies stay HIPAA compliant. UCM covers the rest. Never fail a HIPAA audit again.

When you combine your IT knowledge with the subject matter expertise to built into Unitrends Compliance Manager, you have everything you need to meet HIPAA compliance standards and pass an audit.

Benefits include:

- » **Automated Scans** - Remove human error by having the software perform the technical data collection.
- » **Role-based Assignments** - Divides the workload into three primary roles: Internal Auditor, Technician, and Site Admin.
- » **Online Forms and Worksheets** - Forms are created using actual data from your network and not just a generic checklist.
- » **Task Notification** - As tasks are assigned, stakeholders are notified via email. This makes performing the assessment process a no-brainer.
- » **Auditor Checklists** - Easily assesses your compliance position and gives you a document to show Auditors to help them see how you are doing.
- » **Information Policies and Procedures** - A standardized P&P that is designed as a starting place for organizations that don't have an existing P&P.
- » **Risk Treatment Plans** - Shows what issues were found and tracks which issues were addressed based upon risk scoring methodology.
- » **Compliance Guidance** - Unitrends Compliance Manager presents in-product guidance to help you complete the assessment.

Non-compliance fines are large. Your organization should not be without this level of compliance audit and reporting capabilities. Contact your Unitrends Account Manager to find out how affordable advanced HIPAA compliance assessment and reporting can be.

ABOUT UNITRENDS

Unitrends makes efficient, reliable backup and recovery as effortless and hassle-free as possible. We combine deep expertise gained over thirty years of focusing on backup and recovery with next generation backup appliances and cloud purpose-built to make data protection simpler, more automated and more resilient than any other solution in the industry.
